Many day traders like high-volatility stocks since

there are more opportunities for large swings to enter and exit over relatively

short periods of time. Long-term buy-and-hold investors, however, often

prefer low volatility where there are incremental, steady gains

over time.

What is volatility? Volatility is the rate at which the price

of a stock increases or decreases over a particular period. Higher

stock price volatility often means higher risk and helps an investor to estimate

the fluctuations that may happen in the future.
