Trying new strategy. But it's hard when it lands on green literally

every 5 turns. When it should be 1 out of 37. Obviously the
re's a chance but to have it

land on green O or OO literally 15 times in 20 minutes is n
ot realistic. Obviously the

algorithm makes you lose so the player can buy chips in the

app. Tried the app one more

time the following day and the same exact thing happened. To the guy w
