de no Cart&#227;ode Garantia&#247; explicado Itens.&#247; To fully exploit the constrained width, avoid loading the neighbouring structures and straddle shared utilities running under the site, the &#127752; house was constructed using a lightweight steel frame on a piled slab. The steelwork was prefabricated as a series of &#127752; portal frames that were craned down the alley and site-welded together. Given that every inch in such a narrow space &#127752; was valuable we chose to fully weld the connections and express the frame internally, even utilising the depth of the &#127752; steels to maximise the space.&#247; Alongside the painted steel a simple palette of spruce plywood, Douglas fir joists, terrazzo and cork &#127752; flooring enriches the interior. Externally the timber framed walls are clad in handmade pewter glazed brick slips with a patina &#127752; that reflects the changing light of the sky. Both the simply landscaped and planted rear courtyard and the garden in &#127752; front of the house enhance the feeling of space in this small dwelling.&#247; This self-build project had a long gestation, fitted &#127752; in around professional and family life. The design and construction were developed as time and money allowed so whilst planning &#127752; consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not
