Many day traders like high-volatility stocks since

there are more opportunities for large swings to enter and exit over relatively

short periods of time. Long-term buy-and-hold investors, however, of

ten prefer low volatility where there are incremental, steady gains

over time.

What is volatility? Volatility is the rate at which the price of

a stock increases or decreases over a particular period. Higher stock

price volatility often means higher risk and helps an investor to estimate the

fluctuations that may happen in the future.
