The cost of building an API can vary depending on the complexity of the project, but it typically ranges from \$10,000 to

\$50,000. There are a number of factors that can affect the cost of

API development, including the number of endpoints, the data volume, and the security requirements.

API Cost Calculator: How Much Does it Cost to Build an API?

blog.dreamfactory : api-cost-calculator

What is the typical cost to build an API app? An API app usually costs \$37,500 to build.

However, the total cost can be as low as \$25,000 or as high as \$50,000.
