It's not possible to play VR games without a headset. The simple answer is no, as you probably expected. A very few games (like Half Life Alyx) have been modded to allow play without a headset but they are clunky, rare and still require a capable PC, which it doesn't sound like you have. If you desperately need VRChat in your life, you'll need a headset.

Anyway i can play VR games without a headset? - Meta Community Forums
